- Users with relevant permissions can add workloads (like Lumel Workload) and make them available either to the entire tenant or to a specific capacity.
- Not all users can add workloads. Admins can control who can add workloads in an organization.
- Refer to this Microsoft documentation to learn more: [Adding a workload in the workload hub](#)

1. Start from Microsoft Fabric Home

2. Navigate to Fabric Workloads

3. Choose the Workload 'Lumel'

The screenshot shows the Lumel Fabric Workloads page. The 'Workloads' section is highlighted with an orange box. The 'Lumel EPM' workload is highlighted with an orange box. A callout box points to it with the text 'Choose the workload Lumel EPM'.

Workloads

- Profisee MDM** (Profisee): Match, merge, and standardize data in Microsoft Fabric to create trusted, consumption-ready data products for analytics and AI. [Add](#)
- Quantexa Unify (preview)** (Quantexa): Resolve one or more Microsoft OneLake Data Sources to produce a complete 360° view with unprecedented accuracy. [Add](#)
- SAS Decision Builder (preview)** (SAS Institute Inc.): Automate, optimize, and scale decision-making processes. Manage complex business rules, integrate machine learning models, or use Python code to...
- SQL2Fabric-Mirroring (preview)** (Striim, Inc.): Striim's SQL2Fabric-Mirroring is a fully managed, zero-code replication solution that seamlessly mirrors on-premises SQL Server data to Microsoft Fabric... [Add](#)
- Statsig (preview)** (Statsig): Visualize and Analyze your data with the Statsig Data Platform. [Add](#)
- Teradata AI Unlimited (preview)** (Teradata): Power faster innovation with Teradata. Teradata AI Unlimited serverless engine via Microsoft Fabric accelerates innovation. [Add](#)
- Zebra AI (preview)** (Zebra BI): Zebra AI automatically understands, cleans, analyses and visualizes data using AI and best practice dashboarding. [Add](#)
- Lumel EPM** (Lumel): Accelerate AI readiness by consolidating Planning, Analytics & Data Apps on Microsoft Fabric. [Learn more](#)

Overview

Description
Publisher: Lumel

Empower your business users build no-code Enterprise Performance Management (EPM) apps on top of your semantic models. This workload unlocks three workload items: (a) Lumel Planning for prescriptive, integrated planning apps, (b) Lumel BI for descriptive analytics apps & dashboards and (c) Lumel Data Apps for acting on insights and ensuring performance. Lumel is trusted by 3,000+ customers worldwide. The firm has been voted "Best Overall Vendor" for Enterprise Performance Management in 2025 by BPM Partners, and named "Overall Leader" in the 2025 Wisdom of Crowds EPM Market Study by Dresner Advisory Services.

5. Select Capacities where the Workload needs to be added

The screenshot shows the Microsoft Fabric interface with the Lumel EPM workload page. A modal dialog titled "Add workload to capacities" is open, prompting the user to select where to add the workload. The dialog includes a search bar and two radio button options: "Add to the entire tenant" (unselected) and "Add workload to:" (selected). Under the "Add workload to:" option, there is a search bar and two checkboxes: "All capacities" (unchecked) and "msysbxcapacity" (unchecked). A callout box with an orange border and text points to the "msysbxcapacity" checkbox, stating: "Choose the capacities where the Workload needs to be added". The background shows the Lumel EPM workload details, including an "Add Workload" button and various sections like "About", "Overview", and "Compatible with".

8. Navigate to your Workspace Folder

9. Create a New Item

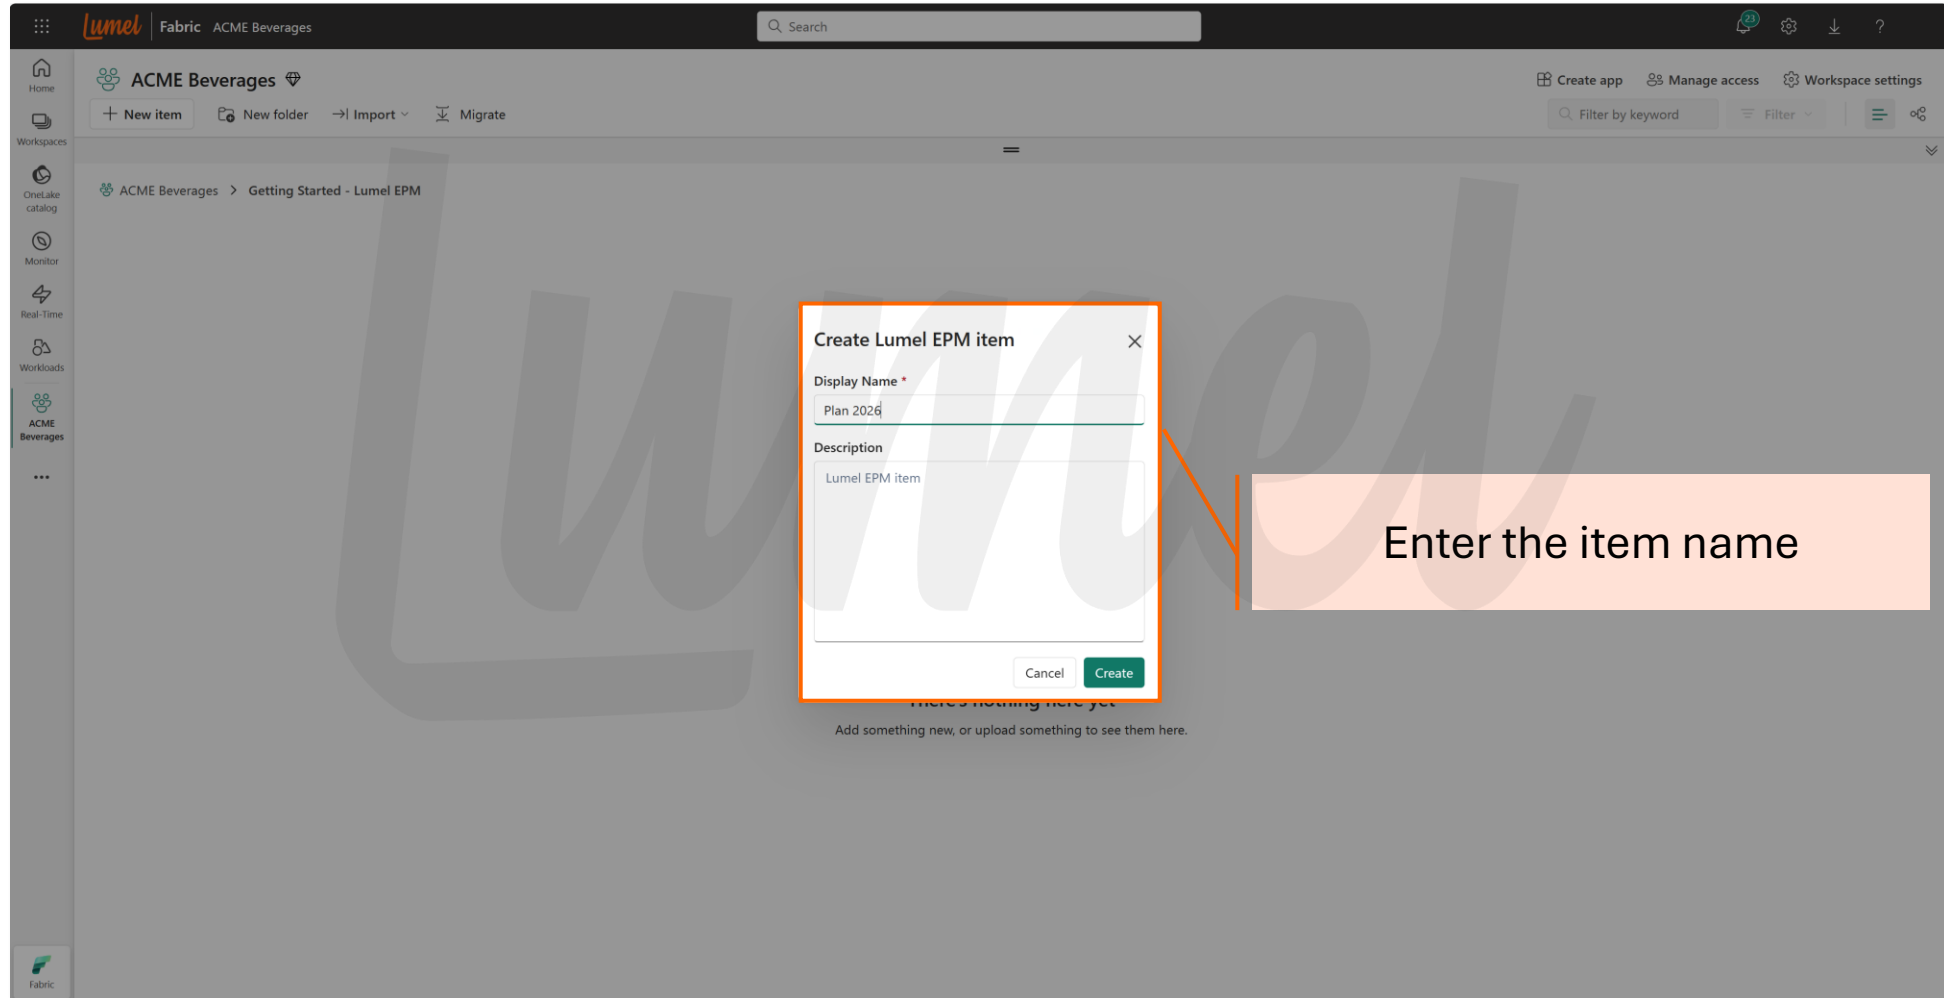

10. Select Lumel EPM

The screenshot shows the Lumel interface for 'ACME Beverages'. On the left is a navigation sidebar with icons for Home, Workspaces, OneLake catalog, Monitor, Real-Time, Workloads, and ACME Beverages. The main area shows a breadcrumb 'ACME Beverages > Getting Started - Lumel EPM'. On the right, a 'New item' modal is open, displaying a grid of item types. The 'Lumel EPM' item is highlighted with an orange border. An orange arrow points from a text box to this item.

From the Items list, select 'Lumel EPM'

Item Name	Description
API for GraphQL	Create an API for GraphQL to easily connect your applications to Fabric data sources.
Dashboard	Build a single-page data story.
Environment	Set up shared libraries, Spark compute settings, and resources for notebooks and Spark job definitions.
Event Schema Set (preview)	Define the structure and format of events through schemas, enabling data quality and validation with group-level access control.
Exploration (preview)	Use lightweight tools to analyze your data and uncover trends.
Lumel EPM	Create No-Code Integrated Planning, Modern BI and Data Apps (PowerTable) with Live Writeback on top of your data platforms.
Notebook	Explore, analyze, and visualize data and build ML models. Supports Apache Spark, Python, T-SQL, and more.
Org app (preview)	Package and securely distribute content in your organization.
Paginated Report (preview)	Display tabular data in a report that's easy to print and share.
Real-Time Dashboard	Visualize key insights to share with your team.
Report	Create an interactive presentation of your data.
Scorecard	Define, track, and share key goals for your organization.
User data functions (preview)	Author, host, and manage serverless user data.

11. Provide the name for your Lumel EPM item

The screenshot shows the Lumel web interface for the 'ACME Beverages' workspace. A 'Create Lumel EPM item' dialog box is open in the center. The dialog has a title bar with a close button. It contains two text input fields: 'Display Name *' with the value 'Plan 2026' and 'Description' with the value 'Lumel EPM item'. At the bottom of the dialog are 'Cancel' and 'Create' buttons. An orange callout box with the text 'Enter the item name' is positioned to the right of the dialog, with a line pointing to the 'Display Name' input field. The background shows a navigation sidebar on the left and a main workspace area with a search bar and various action buttons at the top.

12. Lumel EPM Launch screen

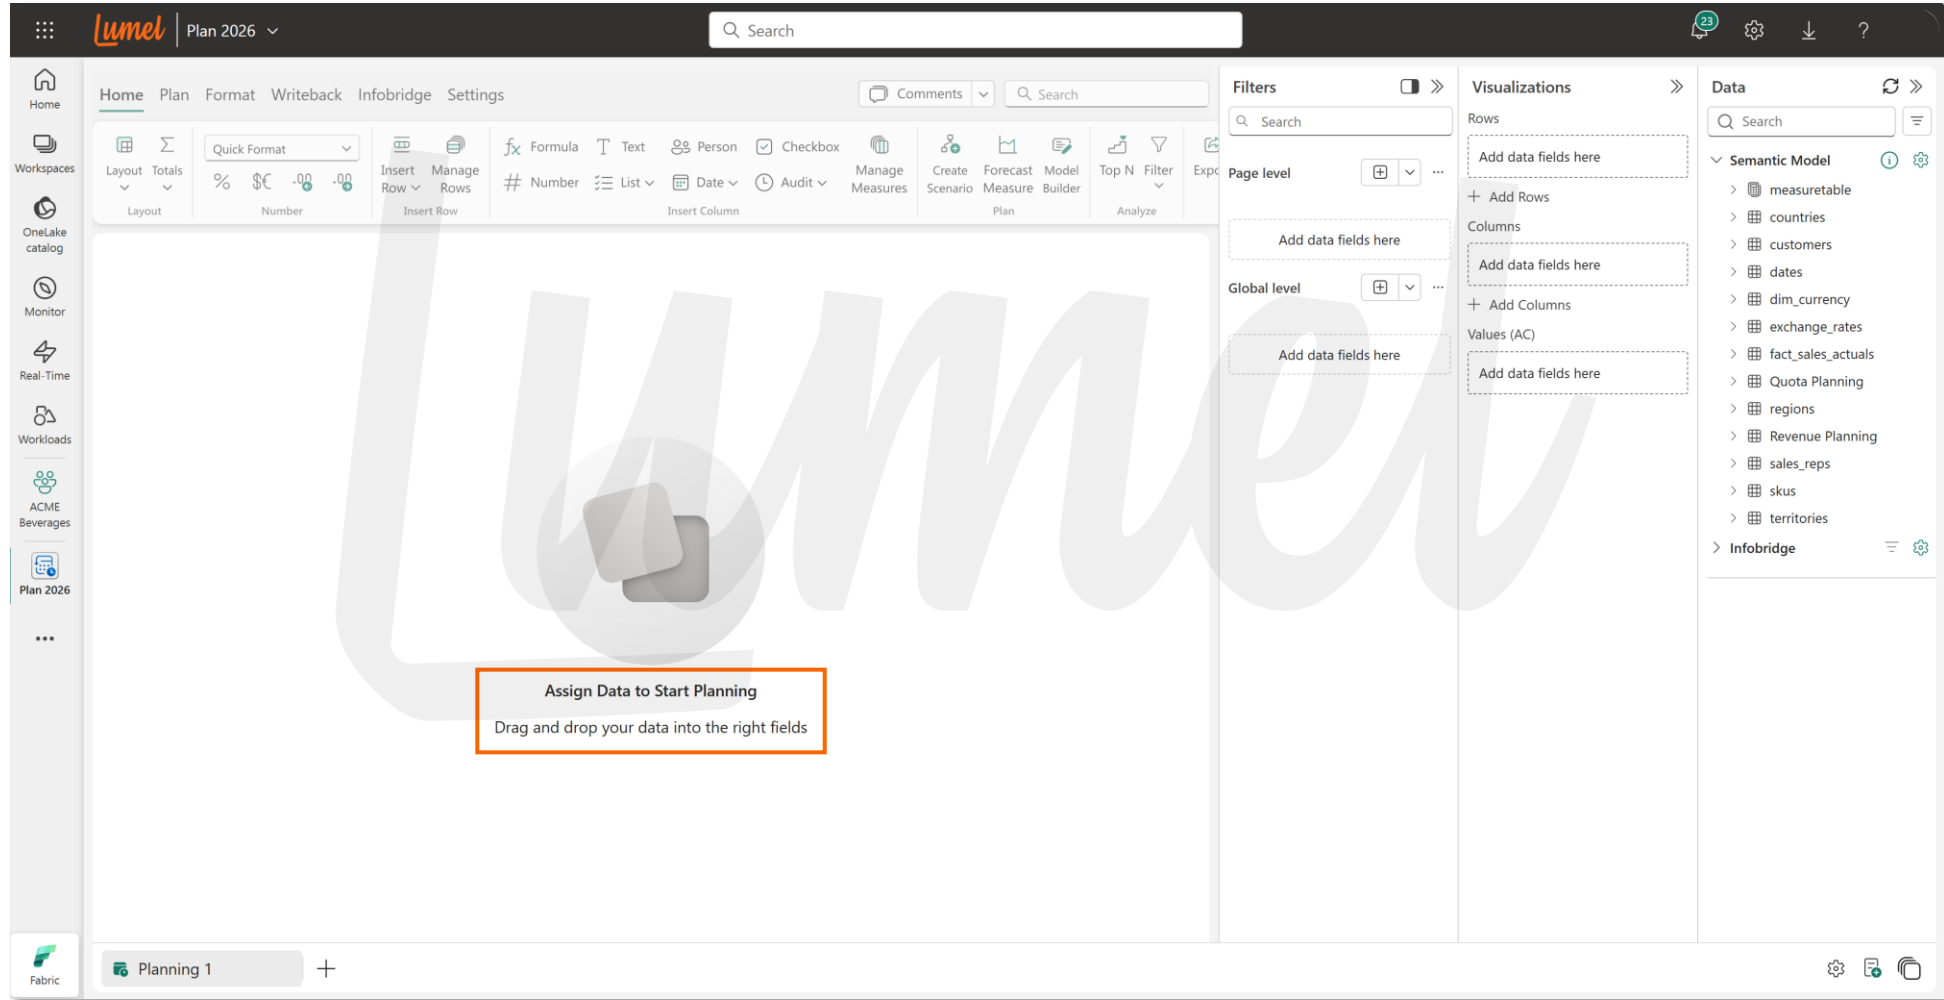

The screenshot displays the Lumel EPM launch screen within a Microsoft Fabric environment. The interface includes a top navigation bar with the Lumel logo, a search bar, and a 'Plan 2026' dropdown. Below this is a ribbon menu with tabs for Home, Plan, Format, Writeback, Infobridge, and Settings. The main workspace features a large 'Welcome to Lumel EPM' message, describing it as a full-stack suite for integrated planning, BI, and data management. Under the 'Connect' section, there are four options: 'Semantic Model' (to connect to an existing semantic model), 'Excel' (to import data from a Microsoft Excel file), 'CSV' (to import data from a CSV file), and 'OneDrive' (to import data from a Microsoft OneDrive file). A 'More Options' dropdown is located below these options. At the bottom of the main area, there is a button to 'Connect to live database table' with a link to 'Create a PowerTable Sheet'. The bottom status bar shows 'Fabric' and 'Planning 1'.

13. Create a Planning App by connecting to a Semantic Model

The screenshot shows the Lumel interface with a 'Connect' dialog box open. The dialog box is titled 'OneLake catalog' and 'Select the semantic model'. It features a table with columns: Name, Owner, Refreshed, Location, Endorsement, and Sensitivity. The first row is highlighted, showing 'ACME Beverages LH' as the selected semantic model. An orange box highlights the 'Connect' button at the bottom right of the dialog. A callout box with an orange border contains the text: 'Select the semantic model and click on 'Connect''. Another orange box highlights the 'Semantic Model' option in the background interface.

Name	Owner	Refreshed	Location	Endorsement	Sensitivity

- Columns: year Hierarchy, year, quarter, month
- Values (AC): Gross Revenue USD

Callout: Your Planning App is ready

16. Let's connect to a PowerTable App

The screenshot shows the Lumel software interface. At the top, there's a search bar and navigation tabs like Home, Plan, Format, Writeback, Infobridge, and Settings. Below that is a toolbar with various icons for actions like Insert, Manage, and Create Scenario. The main area displays a data table titled "Gross Revenue USD by region_name, category, brand, year, quarter, month". The table has columns for "year", "region_name", "Gross Revenue USD in Thousands", and "2026 Plan in Thousands". A dropdown menu is open over the table, listing options: "Planning Sheet", "Power Table", and "Modern BI". The "Power Table" option is highlighted with an orange box. An orange arrow points from this box to a larger orange box on the right that says "Choose this to build Data Apps".

year	2025	2026 Plan
region_name	Gross Revenue USD in Thousands	in Thousands
All	10,305,625.76	12,000,000.00

Ready to Drink Cocktail		.00

Dropdown menu options:

- Planning Sheet: Budget modeling and forecasting
- Power Table: Data Tables and reference management**
- Modern BI: Business intelligence and reporting

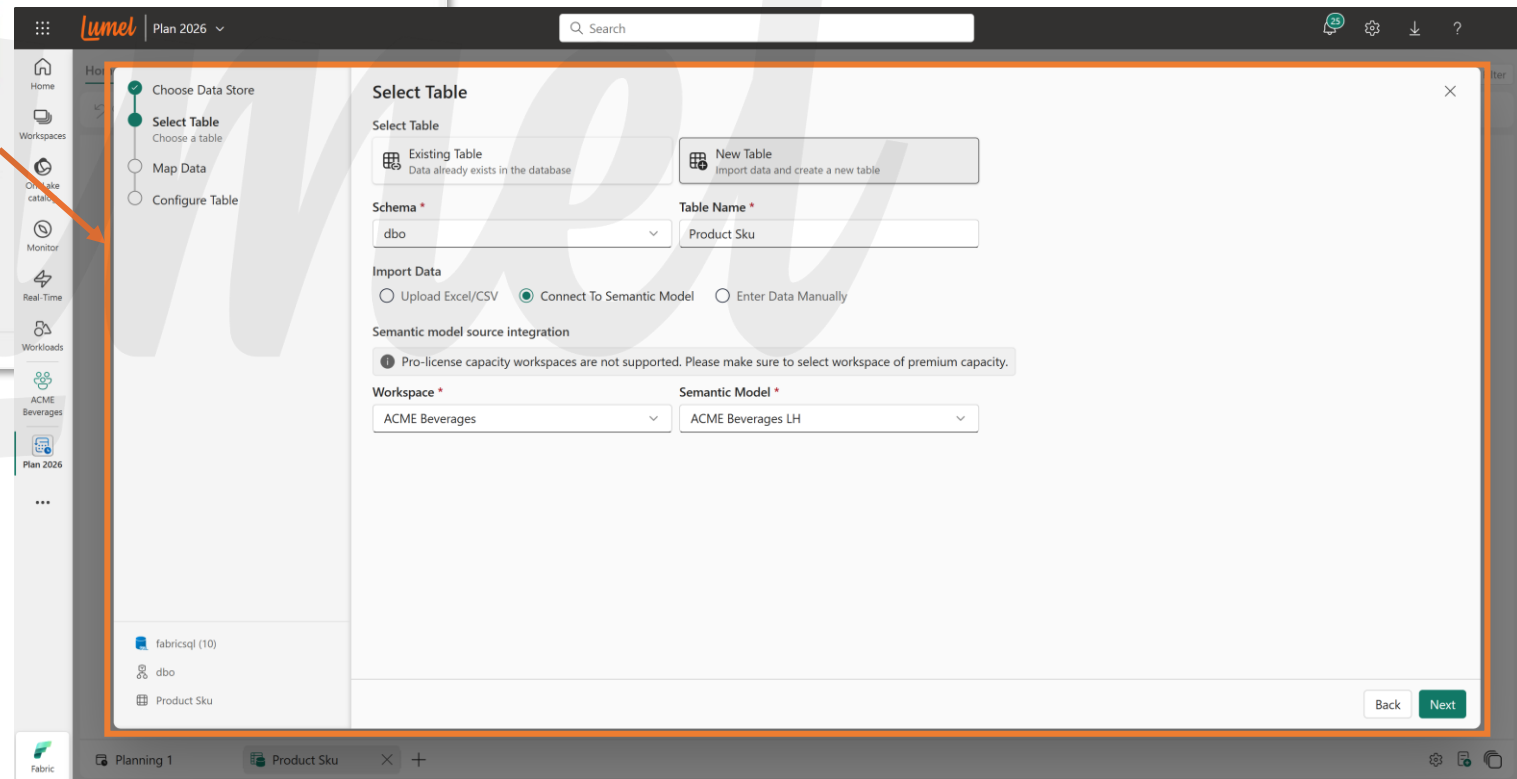

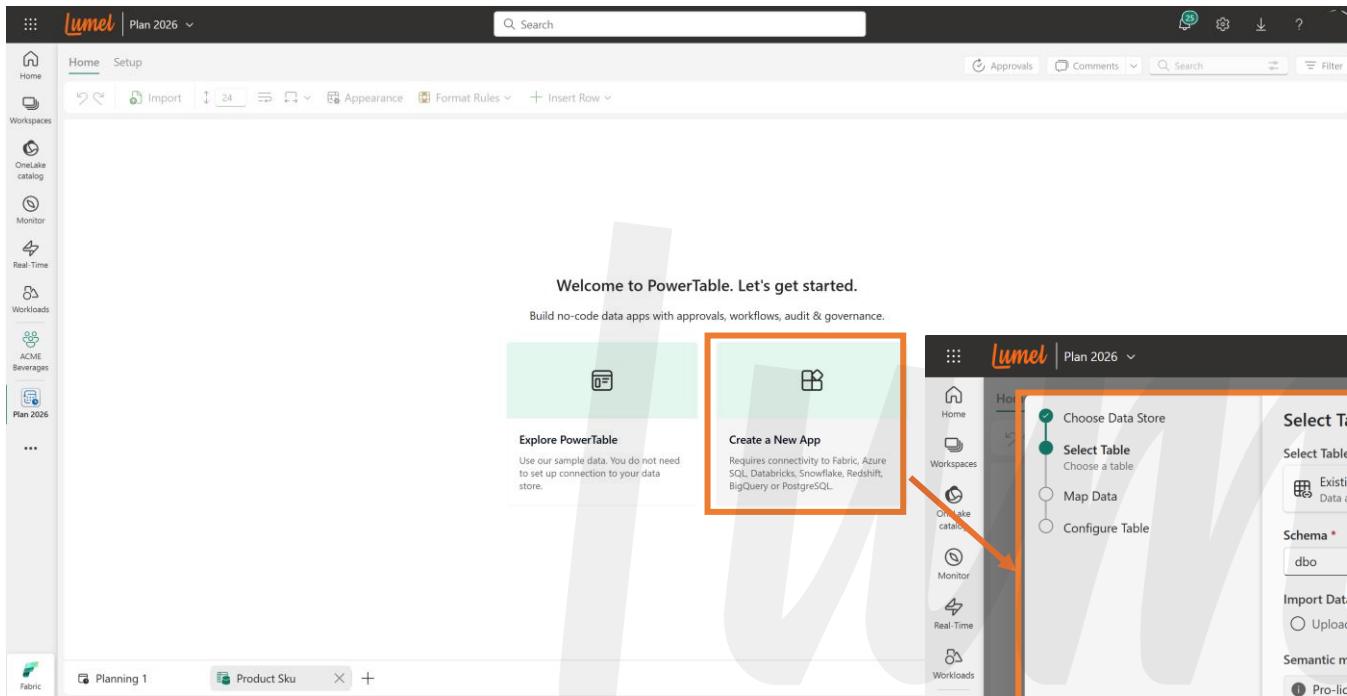

Callout box: Choose this to build Data Apps

17. Provide the name for your PowerTable App

The screenshot shows the Lumel software interface with a 'New Power Tables Sheet' dialog box open. The dialog box has a title bar 'New Power Tables Sheet' and a close button. It contains two input fields: 'Name *' with the text 'Product Sku' and 'Description (Optional)' with the text 'Type here'. There are 'Cancel' and 'Create' buttons at the bottom of the dialog. A callout box with an orange border points to the 'Name' field and contains the text 'Enter the PowerTable App name'. The background shows a table with columns for 'year', 'region_name', 'Gross Revenue USD in Thousands', and '2026 Plan in Thousands'. The table data is as follows:

year	2025	2026 Plan
region_name	Gross Revenue USD in Thousands	in Thousands
All	10,305,625.76	12,000,000.00
APAC	1,243,380.81	3,000,000.00
Beer	1,092,471.75	1,200,000.00
Artisan Ale	103,575.02	200,000.00
Cosmic Craft Brews	838.46	200,000.00
Eclipse Light	68,219.71	200,000.00
Old Mill Stout	132,734.22	200,000.00
Riverbend IPA	184,992.27	200,000.00
Summit Lager	602,112.06	200,000.00
Hard Seltzer	81,787.95	800,000.00

20. Let's create a Modern BI Sheet

The screenshot shows the Lumel software interface with a data table titled "Gross Revenue USD by region_name, category, brand, year, quarter, month". The table has columns for "year", "region_name", "Gross Revenue USD in Thousands", "#", and "2026 Plan in Thousands". The data is organized by year (2025) and then by region (All, APAC, Beer, Hard Seltzer, Non-Alcoholic Beverages, Ready to Drink Cocktails). A callout box highlights the "Modern BI" option, which is described as "Business intelligence and reporting". An orange box with a plus sign is also visible in the bottom left corner of the interface.

year	2025		2026 Plan
region_name	Gross Revenue USD in Thousands	#	in Thousands
All	10,305,625.76		12,000,000.00
APAC	1,243,380.81		3,000,000.00
Beer	1,092,471.75		1,200,000.00
Artisan Ale	103,575.02		200,000.00
Cosmic Craft Brews	838.46		200,000.00

Callout box content:

- Planning Sheet
Budget modeling and forecasting
- Power Table
Data Tables and reference management
- Modern BI**
Business intelligence and reporting

Callout box title: Create BI and Reporting Sheets

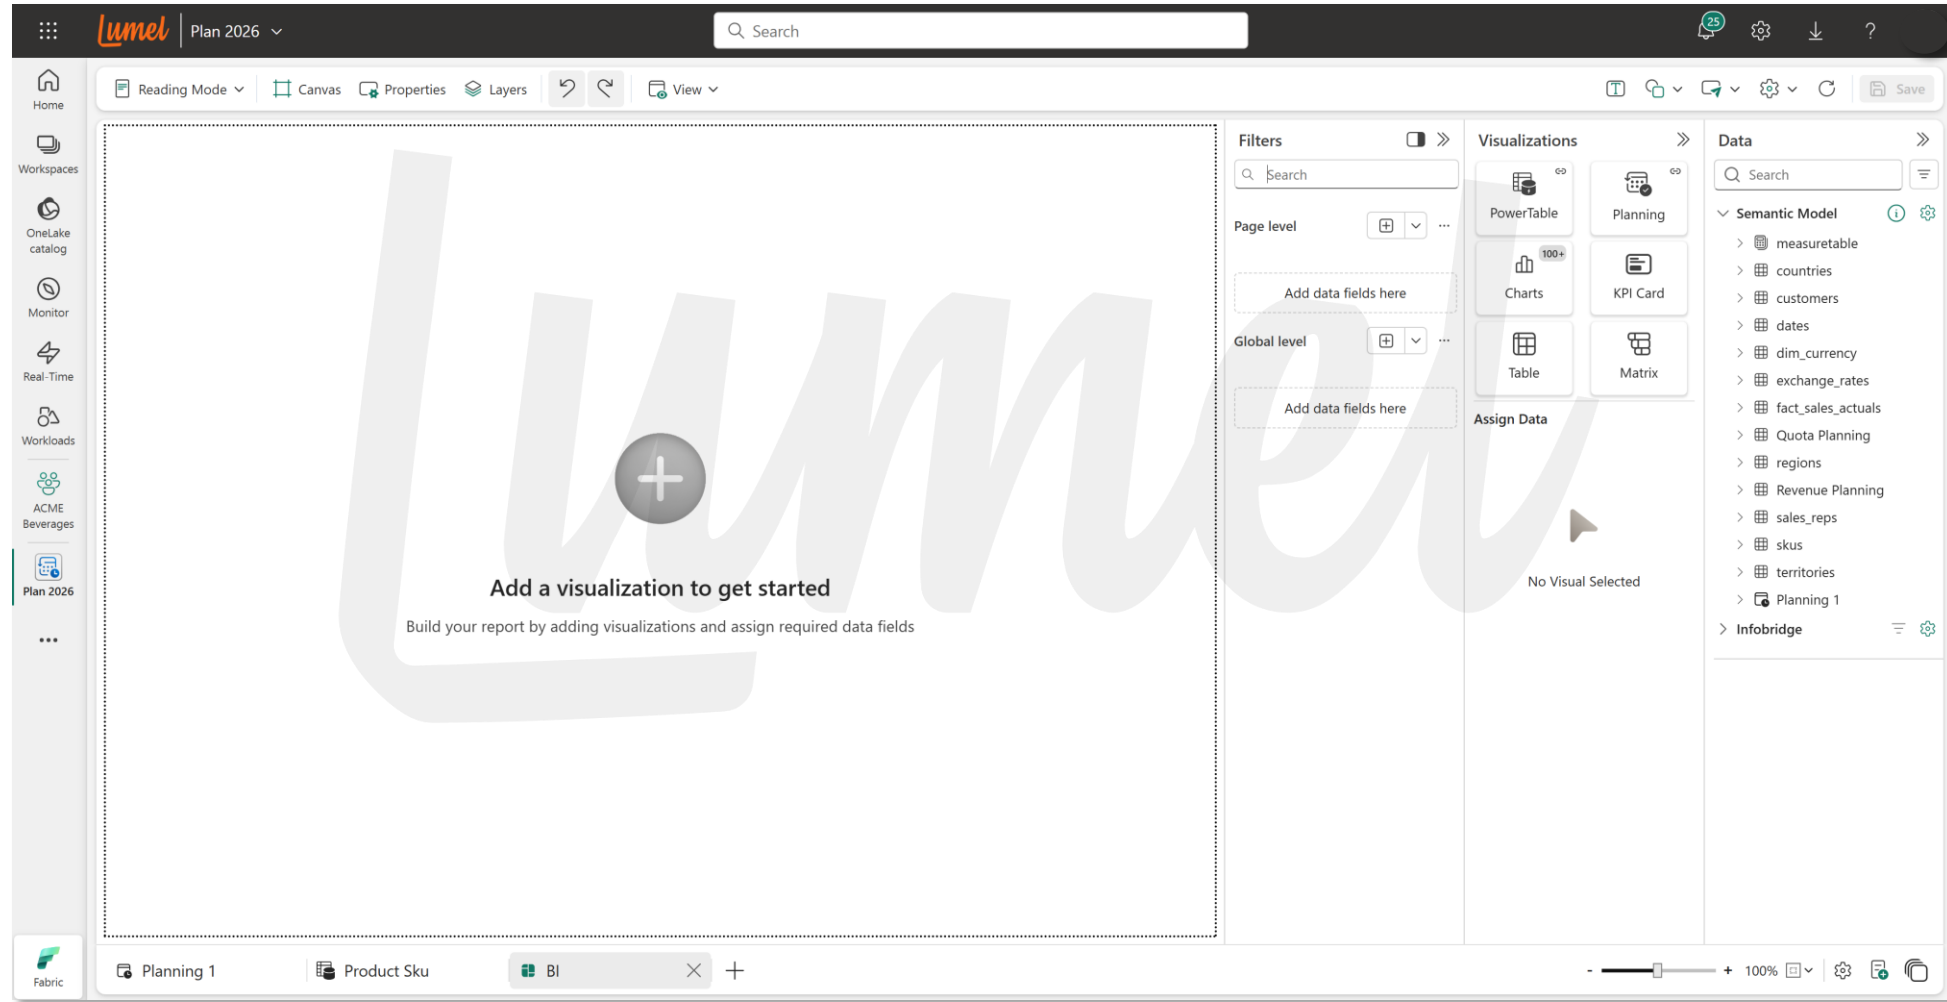

21. Provide the name for your Modern BI

The screenshot shows the Lumel software interface with a 'New Analytics Sheet' dialog box open. The dialog box has a title bar 'New Analytics Sheet' and a close button. It contains two input fields: 'Name *' with the text 'BI' and 'Description (Optional)' with the text 'Type here'. There are 'Cancel' and 'Create' buttons at the bottom of the dialog. An orange callout box points to the 'Name' field with the text 'Enter the Modern BI sheet name'. The background shows a table of 'Gross Revenue USD by region_name, category, brand, year, quarter, month' with columns for 'year', '2025', and '2026 Plan'. The table has 81 rows and 39 columns.

year	2025	2026 Plan
region_name	Gross Revenue USD in Thousands	# in Thousands
All	10,305,625.76	12,000,000.00
APAC	1,243,380.81	1,447,808.22

Ready to Drink Cocktails	23,735.57	27,637.99

22. Modern BI - Home Page

23. Modern BI – Visualize your data

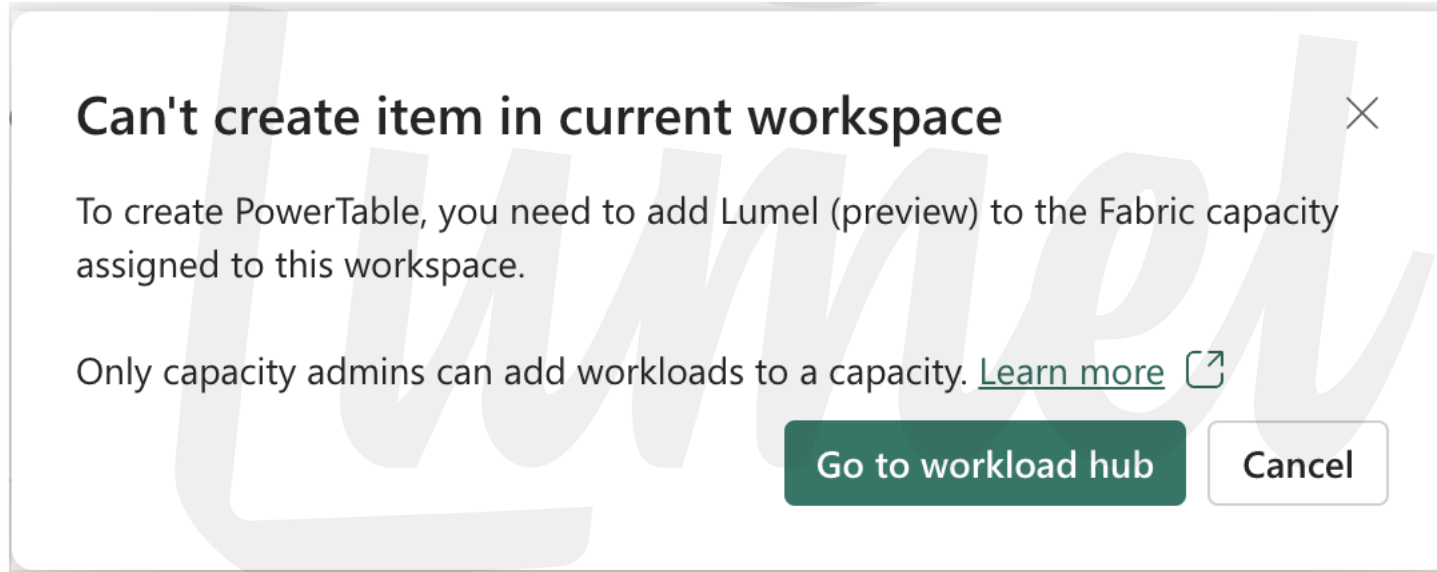

The screenshot displays the Lumel BI interface. At the top, there is a search bar and navigation icons. The main workspace is a canvas with a large text box that reads: "These sheets allow you to integrate planning, data app and analytics views in a single tab". Below the text box is a large plus sign icon and the text "Add a visualization to get started" and "Build your report by adding visualizations and assign required data fields". To the right of the canvas is a panel with three sections: "Filters", "Visualizations", and "Data". The "Visualizations" section is highlighted with an orange box and contains icons for PowerTable, Planning, Charts, KPI Card, Table, and Matrix. An orange arrow points from the text box to the "Visualizations" panel. The "Data" panel shows a list of data sources under "Semantic Model" and "Infobridge". The bottom of the interface shows a taskbar with "Planning 1", "Product Sku", and "BI" tabs, along with a zoom slider and other controls.

Troubleshooting Tips

#1. Reach out to your admin if you see this message in the Workload page

#2. You need a trial or paid Fabric capacity assigned to your workspace; 
Only a capacity admin can add a workload to a capacity.

Can't create item in current workspace ✕

To create PowerTable, you need to add Lumel (preview) to the Fabric capacity assigned to this workspace.

Only capacity admins can add workloads to a capacity. [Learn more](#) 

[Go to workload hub](#) [Cancel](#)
